# SUZUKI
# GSX-S 1000

The GSX-S1000 launched in 2015 as a new model developed to bring the fun of sport riding to riders on the street. At its heart was a street-tuned version of the powerful long-stroke engine that carried the GSX-R1000 to countless superbike and endurance race victories. This engine was skillfully paired with a compact and lightweight chassis, state-of-the-art running gear and a comfortable upright riding position. Just as the GSX-R1000 was built to "own the racetrack", the GSX-S1000 was created to "own the street".

*** It is also possible to purchase the 2025 model – price: 11,700 EUR**
